Accessibility Plan 2024-2027

As a school Kings' is committed to providing premises that are suitable and sufficient for all educational purposes and give access to a broad and balanced curriculum for all students, irrespective of special need or disability.

Kings' School Governing Body supports the principles and aims of the Local Authority's (LA) Access Strategy for Schools and Colleges and will work jointly with the LA to implement agreed objectives to meet the county's targets for improving access to schools and colleges.

This Plan underpins the LA's Strategy for planning to improve access at a local level, by committing the school to a programme of actions, evaluation and review which will continue to improve access to the curriculum for students with special needs and disabilities and access to the school and its facilities for pupils, staff and visitors.

This Plan operates alongside the school's Special Educational Needs and Disabilities (SEND) policy and is consistent with it in terms of principles and approaches to resourcing.

Kings' School will actively seek to improve access for all to services in the ways set out below and will maintain an action plan which sets out the steps Kings' School will take to achieve this. The action plan will be reviewed annually and will be updated to take account of established improvements, changing needs, resource planning and availability, ensuring:

- the curriculum is differentiated to meet the learning needs of students with SEND and that target setting is effective and appropriate for these students.
- educational written material usually provided to all students, to be presented in an appropriate form where necessary to SEND students, including the use of;
 - Pictorial and oral formats
 - Electronic work
 - ICT hardware and software

- the physical environment of the school buildings and grounds meet the needs of all Kings' students, prospective students, staff and visitors.
- a culture of inclusivity, mutual trust and respect between all members of the Kings' community is established and maintained.
- a community that respects and celebrates the achievements of all students at all levels.

Key Objectives

To reduce and eliminate barriers that may restrict or reduce access to the curriculum and/or to full participation in the school community for pupils, prospective pupils, staff and visitors with a disability.

Principles

- Compliance with the Disability Discrimination Act 1995 (DDA) and Equality Act 2010 is consistent with the school's aims, Equal Opportunities policy and the operation of the school's Special Educational Needs and Disabilities (SEND) policy;
- The school recognises its duty under the DDA:
 - not to discriminate against disabled pupils in their admissions and exclusions, and provision of education and associated services
 - not to discriminate against disabled pupils in their access to curricular and extra-curricular activities
 - to take reasonable steps to ensure disabled pupils are not placed at a disadvantage
 - to publish an Accessibility Plan
- In performing their duties, governors and staff will have regard to the Equalities Policy
- Kings' School recognises and values parents' knowledge of their child's disability and the effect it may have on his/her ability to carry out daily activities. The school also respects the parents' and child's right to confidentiality in relation to their disability.
- Kings' School provides all pupils with a broad and balanced curriculum, differentiated and adjusted to meet the needs of individual pupils and their preferred learning styles and endorses the key principles in the National Curriculum framework which underpin the development of a more inclusive curriculum by:
 - setting suitable learning challenges
 - responding to pupils' diverse learning needs
 - overcoming potential barriers to learning
 - assessment for individuals and groups of pupils.

Activity

This section outlines the main activities which the school undertakes, and is planning to undertake, to achieve the key objectives above.

a) Education and Related Activities

The school will continue to seek and follow the advice of Local Authority services, such as Specialist Teacher Advisors (STAs), SEND inspectors/advisers, appropriate health professionals from local and national NHS Trusts.

b) Physical Environment

In collaboration with the Hampshire County Council (HCC) Access Team, the school will take account of the needs of pupils, staff and visitors with physical difficulties and sensory impairments when planning and undertaking future improvements and refurbishments of the site and premises; such as improved access, lighting, acoustic treatment, colour schemes, and provision of further accessible facilities and fittings.

c) Provision of Information

The school will make itself aware of local services, including those provided through the LA, for providing information in alternative formats when required or requested.
